

Dear Members of the FCC:  
I have had XM Satellite Radio for the past two years. In fact I have 3 radios (car, home, and office.)

I both enjoy Satellite Radio and benefit from listening to it every day. XM Satellite Radio offers me music, news, traffic and weather channels that are unavailable anywhere else.

Satellite radio provides both variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I want, demand, and deserve.

Thank you.  
Stephen H. Friedman
